FIRST NAME IN SEALING SYSTEMS

## Bottom of Doorseal - Style Mortised / Concealed BDS-C09-W / BDS-C09-NW

The mortised concealed style door seal is available in an attractive aluminium housing, provides you with a discreet seal for the bottom of your door.

Simply close the door and the seal will automatically be released and seal the gap, open the door and the seal will automatically retract back into the aluminium housing.

The seal is suitable for gap sizes ranging between 3mm to 15mm.

In addition to providing an excellent draught excluder the seal can provide other benefits such as stopping dust & insect penetration, assist in sound proofing. But as a seal it will help maintain room temperature and will help you reduce those all important energy costs.

The seal can be used in the home or business for example residential homes, hospitals, pharmaceutical factories, offices, studios, darkrooms.

To ensure a durable and quality product our seals have been tested for 100,000 cycles

The standard PVC seal can easily be replaced with a high quality pile weather strip—its your choice. Just ask!
